

12/7/67

Dear Anne,

How strange it is that we, below the Mason-Dixon line, had one, foot-deep snow and were snowed in for two days, with traces still remaining and the ice not yet thawed, while you had none!

It is not strange that OINO didn't arrive. There have been other cases. I'm told it is the perfection of inefficiency, nothing else.

In two days I leave for NO to work with Jim for a week, so I'm more pressed than usual. We've both well, tired and going.

Hope you have a nice, non-commercial holiday and a good year.

Bet you do well on your term paper!

Best from us both,
